Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: discussed the changes to the specification that examiner had objected to as introducing new matter into the disclosure. Examiner maintained his position that the changes introduced new matter and pointed out that an applicant is not required to claim what the specification claims as the preferred embodiment. Relative to the incorporation by reference statement, examiner indicated that he will need to consider it further, but it would be appropriate to present arguments that there is no essential information in the patents and/or applications that were referred to in the incorporation statement .
